2. Special rules or conditions are published in each department where necessary. If there is a conflict between rules of any department and the general rules and regulations, the special department rules will govern. If two departments conflict, the decision of the Executive Committee plus the Extension Agent is final.

An exhibitor may be excluded from future competition and forfeit all privileges, premiums and awards, and may be subject to additional penalties as the Fair Board may order.

4. Competition/Show is limited to residents of Baca County or organization thereof.

5. The Baca County Fair Board, Baca County Commissioners, Colorado State University Extension Agent, the Superintendents, with the assistance of the Baca County Sheriff's Office, will use diligence to ensure safety of exhibits after arrival and placement, but in no case will the Baca County Fair Board, Baca County Commissioners, Colorado State University Extension personnel, or the Superintendents be responsible for any loss, damage, or injury of any character to any property while on the grounds or any time or place, nor be liable for or make any payment for the value thereof.

6. The Baca County Fair Board reserves the right to exclude from the Fair any person or persons who have violated any of the rules herein. The Fair Board further reserves the right to decline acceptance of entries at any time without statement of reason.

7. No animal, booth or article will be entitled to a place on the fairgrounds until a proper entry has been made. **8. 4-H/FFA members must enter exhibits by July 13, 2011 through the Extension Office. **Colorado State University Extension
Position on Lamb Tail Docking Issue
3-13-06**

The mission of Colorado State University Extension is to provide information and education, and encourage the application of research-based knowledge.

The State 4-H office and county Extension offices cannot dictate show rules to county fair or the state fair. It is up to local fair boards and state fair management to set their rules and in turn enforce those rules. However, it does lie within the mission of Extension to:

- Provide Extension clientele with accurate, research-based information to individuals, livestock shows, fairs, and various associations on which Extension clientele can use to base policies and rules.
- Cooperate in research projects to further the knowledge and research base to address this issue

When requested, assist a county fair board in the successful implementation of enforceable policies and rules to address the issue. Examples include:

- The .7 inch minimum standard used in some states as measured with the De-Tail Device.
- The 2006 Wyoming State Fair policy of minimum of three (3) full coccygeal/ caudal vertebrae in place.

While CSU Extension cannot dictate rules and procedures to livestock shows, we do have the obligation to ensure that Extension educational efforts are based on sound production and animal husbandry principles. CSU Extension also strives to ensure that policies guiding the management of

4-H livestock projects are congruent with the recommended sound management practices set forth by animal industry and animal health organizations.

- Children ages 5, 6 and 7 may enroll only in the 4-H member Cloverbud Project.
- Children in this age group interested in joining 4-H may not be excluded from the program. Counties are to develop a standing policy as to whether members may enroll in existing 4-H clubs, in a group with same age members, work with their own parents or in any combination.
- 4-H member Cloverbuds will enroll through the 4-H Development Enrollment System the same as other 4-H members.
- This age group may not enroll in any other state or county project, other than the 4-H member Cloverbud project.
- 4-H membership will begin at the first year of enrollment in the project and continue through such time as the individual discontinues enrollment.

Recognition: Non-competitive Program

- The 4-H member Cloverbud Project is a non-competitive membership opportunity. 4-H member Cloverbuds are recognized for participation only and should not be awarded recognition based on

competition. Members may display their completed projects at the county fair and/or other events, but may not be part of any competitive team or performing group. 4-H member Cloverbud participation in State Fair is not allowed.

Animal and/or Firearms Projects

Colorado State University 4-H Development programs do not allow, support, or recommend the following for youth under the age of eight:

Large animal activities and project; including but not limited to, cattle, sheep, swine and horses (including horseback riding);

- Small animal projects and activities; and
- Shooting sports activities and projects.

Exploratory activities where the youth under age eight does not have contact with animals or firearms are acceptable. These might include reading about, studying and observing animal behavior and events, or reading shooting information and observing events.

Rationale for project exclusions based upon developmental research and knowledge

- The child is not mature enough to separate failure from personal feelings about self;
- Inadequate development of judgment ability;
- Inadequate firearm safety and capabilities;
- Lack of insurance coverage;
- Lack of maturity to handle emergency situations.
- Less developed physical abilities, like eye- hand coordination, muscle strength, balance, etc;
- Limited understanding of animal behavior;
- Short attention span, but can complete very simple projects.

CONSUMER AND FAMILY SCIENCE

4-H PROJECT RULES

1. Eligibility: Exhibitors in the divisions of this department must be bona fide members of Colorado 4-H whose project work and records are certified up to date and eligible by the appropriate Extension agent. In addition, exhibitors must be at least eight years of age, must not have reached their 19th birthday as of December 31 of the current enrollment year and must satisfy other eligibility requirements (if specified) for a class, to compete in that class.

2. 4-H members may enter only once in the same class.

3. Members must be enrolled in the project (these projects may be broken down into units, level or categories) in which they exhibit.

4. Only one exhibit in each class will be accepted from each exhibitor.

5. 4-H e-Records may be completed by pencil, ink or computer. The choice will not affect judging. Pencil is preferred for Juniors (8-10).

6. Display boards must meet the specifications. The standardized display board size of 4 ft. x 3 ft with sides that do not overlap is to be used for 4-H projects.

7. Projects are divided into Junior, Intermediate and Senior age groups. The age for Junior is 8-10, Intermediate is 11-13 and Senior is 14-18.

8. Entry labels: Each exhibit and sturdy binder/notebook (containing e-Record and other materials) is to have a label containing the following: county name, county number, exhibitor name and age.

9. All Grand Champion, Reserve Champion and placing award exhibits must be displayed and remain on display for the duration of the fair.

10. The management will not be responsible for loss or damage to exhibits, though it will use all care to ensure their safety.

11. Note: Exhibits of unusual size or shape may not be on public display. Exhibitor cards and ribbons will be displayed in project areas.

12. Please consult the Colorado State Fair syllabus for the specific requirements and details of each project on page 2 under 4-H Project Exhibit Rules. For more information on displays and projects research:

www.colorado4h.org/project_resources/StateFairExhibitReq.pdf

Display of 4-H Exhibits

1. Display boards are made of lightweight cardboard and are sturdy, attractive, inexpensive and white is available at the Extension Office. They come in several colors. When opened, the 1-foot-wide winged sides provide a surface to help the exhibits stand alone on a table top.

A standardized display board size of 4 ft. x 3 ft with sides that do not overlap is to be used for 4-H projects.

2. No headers or attachments are allowed on the display boards.

Tips:

- Boards must be easily read from a distance of three--five feet. Use large, bold letters (at least 3” high) for title or caption.
 - Design the exhibit, keeping in mind the size and shape of the open show board (three surfaces, including the wings).
 - When mounting items on the display board, avoid things that are bulky or heavy that could cause the display board to collapse. Mount items securely so they won’t fall off. Tape will not work.
 - You have three minutes only for the message to be read; be concise.
 - Tell your story with visuals.
 - Avoid putting too much in the exhibit. It should never have a crowded look.
 - Dark lettering on a light background is most visible.
 - Do not use headers or attachments on your display board.
- Binder/notebook as appropriate for project exhibits.
- No binders with slider closures will be allowed.

**Display board- dimensions 4 ft. x 3 ft.
with sides that do not overlap.**

2. Indicate in e-Record whether articles are made from kit or are self-cut and designed by the member.
3. A set means a number of things of the same kind that belong, or are used together (i.e. six matching coasters, belt and buckle with matching designs, etc.).
4. Advanced leathercraft members may exhibit in more than one of the classes, provided the member is enrolled in and has completed the requirements of the unit. Example: Units 4-7.
5. It is recommended that first year members take Unit 8 instead of Unit 1 or Unit 2

WOODWORKING

Units 1, 2 and 3 in Woodworking have very specific restrictions on the tools used in building an article to display. This is done for reasons of safety and to provide a fair comparison among projects in a unit. An exhibit that shows evidence of not following these restrictions will not be ranked in the top-ten placing.

Note: In making all placing, judges will consider straightness; accuracy and smoothness of saw cuts; the difficulty and preciseness of joints; the skill employed in the use of nails, screws, gluing and other hardware; freedom from tool or sandpaper marks; appropriate finish evenly applied; article attractiveness, proportions, and use of proper wood for the intended use; ability to follow instructions; quality of workmanship; and completeness of e-Record. Always use proper safety gear.

CAKE DECORATING

Project Exhibit Rules

1. Cake should be placed on a very firm, disposable surface cut parallel to the shape of the cake and no more than 1 ½ " on each side from the base of the border (not the cake). The surface should be covered. Freezer paper is not advised because it absorbs grease. Covering must be food-safe.
2. Real cakes are required for Units 1, 2 and 4. Cake forms are preferred for Units 3, 5 and 6, as they hold up better under fair conditions.
3. Lower Units (1-4) in Cake Decorating should not use Royal Icing or Rolled Fondant as the base frosting. No non-edible items in Units 1, 2, 3, 4 and 5.
4. Exhibit requiring over 2'x2' exhibit area must be checked with the superintendent.
5. Cakes will **not** be cut for judging.

1. If project exhibit contains multiple parts, all pieces of the exhibit must be in a secure container or bag on larger than 22"x 14" x 9" (or an overall size of 45") which has handles that allow it to be easily carried. An exhibit with multiple parts should have no more than 10 items.
2. The standardized display board of 4' x 3' is to be used for all 4-H projects. No additional items may be included on or in front of display board. All other exhibits should fit within a 2' x 2' x 2' space.

CLOTHING CONSTRUCTION

1. Requirement: All exhibit garments must be labeled with name, age, county and unit of the 4-H member. Labels must be attached at the inside of the neckline or at the waistband of skirts and pants. Information must be written or typed on a label and securely attached to inside of garment. This will assist in case of property loss.
2. The garments may be worn before exhibiting but should be in good and clean condition.
3. In Units 1-4, sergers may be used as a seam finish, only; not as a seam.
4. Due to the difficulty of skills involved, buttonholes and button loops are to be used only in Unit 4 and higher.
5. In Units 2-4, clothing is defined as wearable, dressy, casual, active/sportswear or sleepwear. An exhibit shall consist of no more than three coordinated pieces. No accessory items, i.e. shoes, scarves, hats, etc., (except Unit 1 if using a pattern from the manual).
6. Pattern instruction sheet is required and must be attached securely to the e-Record. Write name and club/county on pattern instruction sheet.
7. Do not use binders that are clear plastic with sliders.
8. Members are encouraged to select a unit that challenges their skills. All units will be judged on required skills included in the manual.
9. Units 21-28— Complete one textile experiment using your garment fabric each year. Include this information in your e-record: completed experiment sheets and sample mounted (on 8 1/2" x 11" heavy paper). Experiments may be repeated in a subsequent year as long as different fabric is used.
10. All garments constructed in Units 1-4, 8 and 21-28 are to be made for the member with the exception of Unit 7- Sewing for Others.

Note: All Baca County/Colorado State Fair silk items or garments will be displayed only with "permission to display" form that acknowledges possible fading caused by state fair display lighting. Permission-to-display forms are available at the Extension offices.
